

One Windows Mobile Smart Device for domestic and international use

The Sprint International Smart Device IP-830w by Samsung offers our customers the ability to use one Windows Mobile device both in the U.S. and while traveling outside of North America. The IP-830W uses the Sprint CDMA/EVDO networks while in the U.S., Canada and Mexico, and roams on CDMA and/or GSM networks (voice) and GPRS networks (data) while outside of North America.

Full QWERTY keyboard

Sending emails and editing documents is easy, fast, and familiar.

Enhanced Mobile E-Mail

Read and reply to your email and even edit attachments. Supports Good Mobile Messaging - the enterprise-class software solution for mobile messaging. It provides secure access to real-time e-mail and corporate data with a familiar, Outlook® -like interface. Or use Pocket Outlook (Exchange, POP3, IMAP) and Microsoft Direct Push Email.

Large, vivid display

Displays attachments and photos beautifully.

Sprint® Mobile Broadband enabled

Experience higher data speeds over the Mobile Broadband network. Fast retrieval of customized, up-to-date Web content such as News, Sports and Weather. Download large attachments and access web-based data on the spot.

Windows Mobile Operating 5.0 system

Check your Outlook e-mail, view attachments in Word, Excel, PowerPoint, and Adobe Acrobat, schedule meetings, browse the Internet, and listen to music. With a Windows Mobile-powered device in your pocket, you're ready to face your day.

Windows Media Player

Windows Media Player 10 Mobile allows you to play music, videos, and more on your Samsung iP830W, and it works seamlessly with Windows Media Player 10 on your Windows XP-based computer.

On Demand - free Sprint® Application

Retrieve customized, up-to-date web content such as Sports, Weather, News, Money and Movie Information with the push of a button.

Battery Life

Standard rechargeable Li-Ion battery provides up to 3.4 hours continuous talk time in digital mode. Extended battery provides 5.5 hours continuous talk time. Both are included in the box with the device.

Phone as Modem capable

Use the included USB cable or Bluetooth Wireless technology to connect to a PC allowing Internet and email access.

Built-in speakerphone

For hands free operation when needed

Speaker-Independent Voice Recognition

Use your voice to dial phone numbers, search the phonebook and launch applications.

Sprint® Software Store

Direct access to content from Handmark™, certified for the Sprint network. Find, download and buy games and applications as needed in a secure environment.

Built-in Bluetooth® support

Use with Bluetooth headsets for wireless, hands-free operation.

Audible

Audible has thousands of unabridged and abridged digital audio books in dozens of genres; audio magazines like Scientific American, The New Yorker, Forbes, Harvard Business Review, Jazz Times, and more

Remote Control

Use your Samsung IP-830W as a remote control.

Voice Signal

Use your voice to look up contacts and place phone calls, get calendar information, play and control your music, and get key device status and information.
